

## Sandon Capital Activist Fund

November 2014 Monthly Report

Entry/Exit Prices: \$1.5743/\$1.5618

### Fund Description

The objective of the Fund is to deliver returns to investors through a combination of capital growth and distributions. The Fund aims to achieve this objective by seeking to invest in opportunities that are considered by Sandon Capital to be trading below their intrinsic value and that offer the potential of being positively influenced by investors taking an active role in proposing changes in the areas of corporate governance, capital management, strategic and operational issues, management arrangements and other related activities. Neither returns nor capital are guaranteed.

### Fund Commentary

The Fund delivered a return of 1.0% in November, bringing total returns (net of all fees and expenses) since inception to the equivalent of 15.4% per annum. Positive contributions this month came from Armidale Investment Corporation Ltd (AIK) (1.4% contribution) and AMP China Growth Fund Ltd (0.5% contribution). There several small negative contributions, the largest being Onthehouse Holdings Limited (OTH) (~0.33% deduction from the monthly result).

During November, Coventry Group Ltd (CYG) announced that the long-awaited (and needed) separation of Chairman and CEO roles would occur on 1 January 2015. CYG also announced that the current executive chairman would resign from the Board at the end of January 2015. We see this departure as a significant positive step, which we believe should facilitate a comprehensive review of the company's current strategy. We expect to see further Board renewal during 2015.

The Fund's cash holdings continue to grow, as we exit from positions that have come to fruition. Based on current trends, the fund's cash holdings will be close to 45% by the end of calendar 2014. We remain cautious about the global macro outlook, as market conditions remain fertile for sentiment to overshoot value (both up and down). The consequences of the significant macro factors at play globally are difficult to predict or quantify. We remain focused on opportunities that have high levels of tangible assets, marketable securities or cash and whose prospects are somewhat independent of market and economic conditions, as we believe these offer the best risk-adjusted returns in the current environment.
